the roll having a roll bulk about 10 cc/g or greater; and
the first and/or second opposing side with the chemical additive filaments having a Fuzz-On-Edge about 1.8 mm/mm or greater.

2. (Withdrawn/Previously Presented) A product comprising:

an uncreped throughdried single ply tissue web comprising cellulosic fibers having a first and a second opposing sides;

a plurality of extruded filaments of a chemical additive extruded onto the first and/or second opposing side of the web;

the tissue web wound into a roll;

the roll having a roll bulk about 10 cc/g or greater; and

the first and/or second opposing side with the chemical additive filaments having a Fuzz-On-Edge about 2.0 mm/mm or greater.
